**REGISTER NOW**

**USING CBCT FOR SIMPLE, PREDICTABLE, ECONOMIC, AND SAFE IMPLANT GUIDED SURGERY**

**INTRODUCTION**

Prosthetically driven implant placement is a crucial factor for successful implant therapy. Computer-Assisted Implant Surgery (CAIS) offers an additional tool for treatment planning, surgical placement, and prosthetic rehabilitation in an interdisciplinary team approach. In addition, continuous technological improvement in computer-based development and dental manufacturing processes ensure new opportunities in the digital clinical workflow. CBCT and digital dental implant technology are developing quickly. Participants can be on the cutting edge of these technologies by attending a comprehensive overview lecture by Dr. Ahmad Kutkut. This innovative and forward-thinking continuing education workshop focuses on digital workflow in implant dentistry for general practice settings. Attendees will be able to learn a treatment plan and implement patient treatment from start to finish with digital technology in economic, simple, predictable, and safe techniques.

**LEARNING OBJECTIVES**

- To be able to treatment plan implant cases based on CBCT.
- To learn how to use intraoral and/or dental model surface scans.
- To learn virtual computer-based implant planning software.
- To understand the benefit of a 3-D printed surgical guide and 3-D printed model.
- To learn guided implant surgery techniques.
- To learn digital implant impressions to design and CAD/CAM fabrication of implant restorations.

**Ahmad Kutkut**  
DDS, MS, PhD, FICOI, DICOI

**Meet Our Speaker**  
**DR. AHMAD KUTKUT**  
DDS, MS, PhD, FICOI, DICOI

**Dr. Ahmad Kutkut** is a Professor and Chief of the Prosthodontics Division at the University of Kentucky College of Dentistry. In 2021, Dr. Kutkut completed a PhD in Clinical and Translational Sciences from the University of Kentucky College of Medicine. In 2016, Dr. Kutkut completed a Master's Degree and a Certificate in Prosthodontics at the State University of New York at Buffalo School of Dental Medicine. In 2007, Dr. Kutkut completed a two-year certificate program in Implant Dentistry at New York University College of Dentistry, Department of Periodontology and Implant Dentistry. In 2005, Dr. Kutkut completed a certificate of Advanced Education in the General Dentistry Program at New York University College of Dentistry. Dr. Kutkut is an active member of ADEA, ITI, ACP, and ICDI. Presently, Dr. Kutkut is a reviewer for "Journal of Prosthodontics," the official publication of the ACP, the "Journal of Oral Implantology," the official publication of the AIME, General Dentistry Journal, Pediatric Oral and Dental Journal, Journal of Indian Society of Periodontology, and Jordan Dental Association "Smile Dental Journal." Dr. Kutkut is one of few clinicians worldwide trained in implant dentistry's surgical and prosthodontic discipline. In 2020, Dr. Kutkut received a University Endowed Professorship in Dentistry. Besides lecturing nationally and internationally, he has published numerous articles and abstracts. In addition to his teaching, research, writing, and lecturing, he presented several lectures, papers, and table chairs at major meetings such as the Academy of Oromaxillofacial Dentistry, Greater New York Dental Meeting, American College of Prosthodontics, American Academy of Fixed Prosthodontics, Northeast Implant Symposium, American University of Triana, Alabama, Tishchen University, Saudi Arabia, and Jordanian Dental Implant Group, Jordan. Dr. Kutkut is currently the Director of the Prosthodontic Implant Program at UKCD and maintains a practice limited to implants, fixed and removable prosthodontics.

**RESEARCH SERIES**

**Mastering PubMed**

**ABSTRACT**

Researchers track citations of specific articles or papers to help them measure the impact and relevance of their work or the work of others in their field. PubMed offers a broad overview of existing literature on a particular topic and considered as a comprehensive database for biomedical topics. Although PubMed is an easy-to-use search engine, searching in a structured manner will help get research results faster. Join us in learning some tips and tricks to master PubMed search.

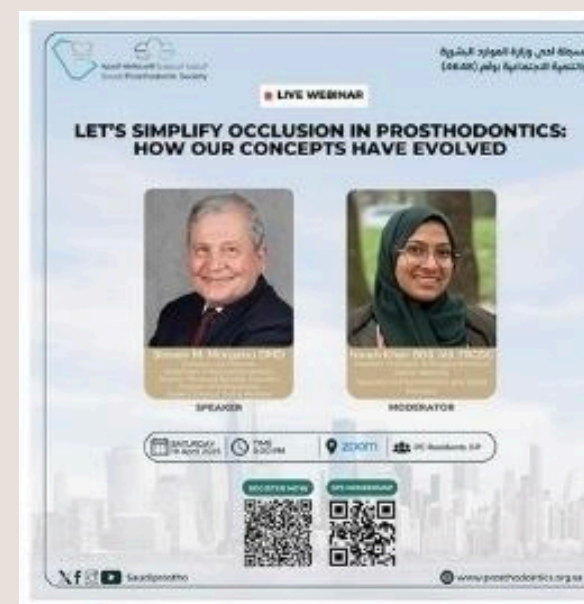

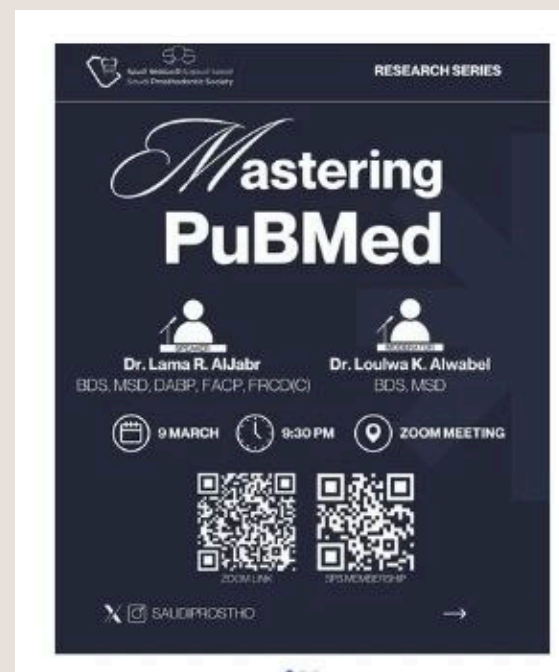

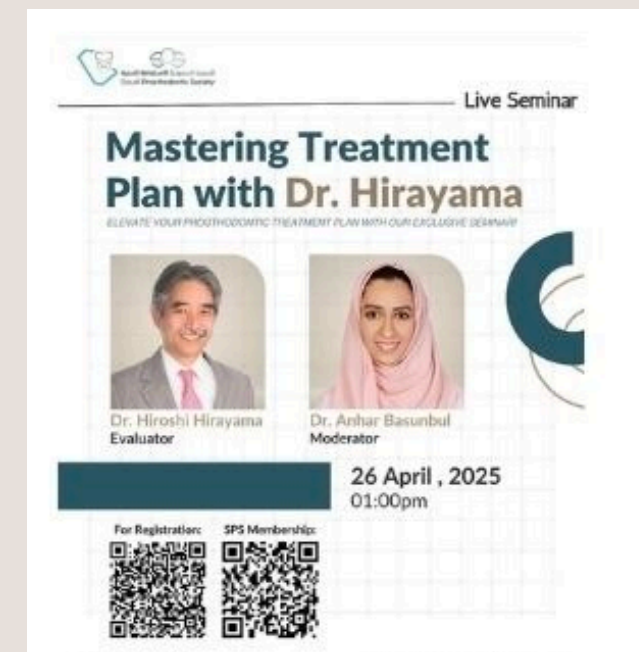

By the end of the "Mastering PubMed" webinar, participants will be able to:

- Understand the difference between Medical Subject Headings and Keywords.
- Understand how to apply field tags.
- Create an effective search using Medical Subject Headings and Keywords.
- Apply Search filters.

The image displays a collection of seven promotional posters for the "Shining 3D Digital Tour". The posters are organized into two rows. The top row contains three posters dated 29 NOV, 1 DEC, and 2 DEC. The bottom row contains four posters dated 4 DEC and 12 DEC. Each poster features a unique 3D digital sculpture, such as a blue tower, a yellow sphere, a brown tower, a purple tree, and a green tower. The posters are branded with "SaudiPressPhoto" and "Kalfout" logos and include contact information for Amr Elwan and Hani Al-Hajjari. The background of the posters is a light teal color with a subtle pattern.
